

# Charitable Fundraising

We are extremely grateful for all the help and support that our local hospitals receive from the general public and local businesses. The goodwill that is generated by our hospitals and the staff is most gratifying. We are consistently approached by members of the public offering support and seeking advice.

There are many ways to help the Newcastle Hospitals and we have listed overleaf the most common forms of support. We are keen to protect both the hospitals good name and integrity as well as those individuals who offer support and we therefore ask that anyone wishing to fundraise in our

name should seek permission before the fundraising commences. Help and support will be made available from the Charity Fund Office and a letter of authorisation will be issued by The Newcastle upon Tyne Hospitals NHS Foundation Trust to the fundraiser.
